Introduction

OPERATIONAL EXCELLENCE

This is achieved when an organization is strategically designed to continually improve the way it creates and delivers value to its customers.

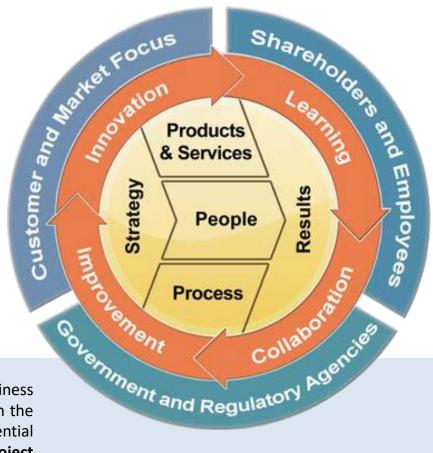

MANAGEMENT EXCELLENCE

This is achieved when an organization achieves the maximum level of performance possible considering the human, material and financial resources available.

RESPONSIBLE AND SUSTAINABLE GROWTH, LEADERSHIP IN PRODUCTS AND SERVICES, FOCUS ON CUSTOMERS AND ON RESULTS

The Management Excellence Model involves the systematic use of key practices and tools in business management, aiming at increasing performance in all areas and operations of your organization, based on the principles of continuous improvement, preventive management and a focus on results. Among the essential tools for Management Excellence are: Business Process Management (BPM), ISO Consultancy, Project Management-Lean Six Sigma (LSS), Agile Methodology (ACP), Digitization & Innovation — Robotic Process Automation, Artificial Intelligence, Machine Learning, Application Development and Vision Intelligence, People Management (PM)

Robotic Process Automation & Artificial Intelligence

Robotic process automation (RPA) is a software technology that makes it easy to build, deploy, and manage software robots that emulate humans actions interacting with digital systems and software.

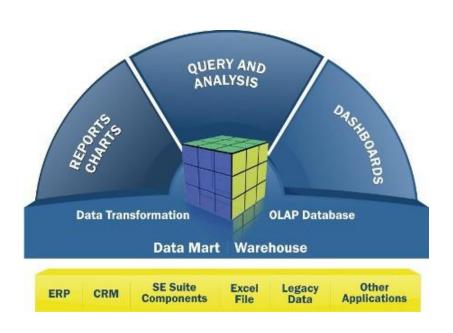

Artificial intelligence (AI) refers to the simulation of human intelligence in machines that are programmed to think like humans and mimic their actions.

These Software robots can do work faster and more consistently than people, without the need to get up and stretch or take a coffee break.

Kayzed RPA & Al solutions can help you streamline workflows, making organizations more profitable, flexible, and responsive, increases employee satisfaction, engagement, and productivity by removing mundane tasks from their workdays.

Machine Learning & Data Science

Machine Learning & Data Science technologies expands knowledge and strategic decision making in the organization reliable and complete.

It allows you to transform an images/pictures and indecipherable mass of data into facts and extract trends and patterns from it. Data can be organized and ordered, comparisons can be made and significant information can be obtained that can be invaluable to the organization.

These technologies provided by **Kayzed** makes information readily available and in the format you need. By integrating data across the organization and delivering reports on demand, the technical team spends less time dealing with requests and business users spend less time searching for the most accurate information.

Vision Intelligence

Vision Intelligence

With **visual intelligence** computers are able to conduct an image recognition search without the photos being tagged with any descriptive. It's as though they are seeing things the way humans see them.

Kayzed can program your CCTVs to give you live report on crowd analytics and object counting, customer's overall time spent in the store analytics and conversion analytics, monitor compliance (PPE, mask), conduct contactless identification and authentication.

Application Development

Application Development

Build a mobile or web-based app. for your business to be visible to customers all times and create a direct marketing channel

Enhance brand recognition and stand-out from the competition with minimum investment and maximum returns

No matter whether you are selling or servicing, provide an easiest way to customers to reach you

Prestigious Client List

Why Kayzed

Trust

Trusted by more than 1500 clients in delivering high quality service

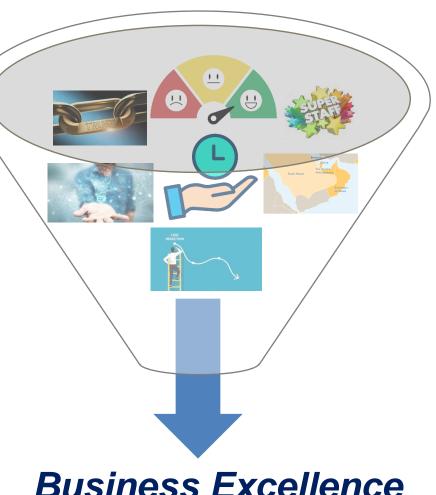

Regional presence

Strong regional presence with more than a decade of experience providing best in class technology and consulting services

Innovation

Tapping opportunities and transforming them into action through new-age technologies

Domain expertise

Highly qualified staff with broader and deeper knowledge of business trends, industry challenges, and new technologies and processes

Cost Reduction

Help you cut costs through detailed process study and solution recommendations

Client Experience

Enhancing client experience is the heart of our business strategy

Thank you!
